Register Items for Free Repair at Fix-It Fair January 27

VALPARAISO, Ind. – The Recycling & Waste Reduction District of Porter County will host a Fix-It Fair at the Valparaiso Public Library branch, located at 103 Jefferson St. Valparaiso, IN, on Saturday, January 27, 2024 from 10 a.m. until 1 p.m. Attendees must check in before 12 p.m. in order to receive repair.

In efforts to promote reuse, the event invites members of the community to get broken items repaired at no cost. In partnership with Porter County Public Library System and Vidette Makes, volunteers and professionals provide free repair while educating attendees on how to make their own repairs at home.

Services are available for a variety of repairs such as items in need of sewing and soldering, jewelry, small appliances, IT troubleshooting, computers, electronics, clocks, lamps, musical equipment, tools, indoor or outdoor appliances, small furniture, and glasses.

The District requires attendees to register their items by January 24, at PorterCountyRecycling.org/Fix-It-Fairs/.

Contact Gabrielle@PorterCountyRecycling.org or 219-465-3819 for more information regarding District events.
